MRC+ is ECA Listed

Marstair units have been added to the Energy Technology List and as such are eligible for the Government's Enhanced Capital Allowance (ECA) scheme. It is managed by the Carbon Trust on behalf of the Department Energy & Climate Change and is seen by the Government as a key part of their programme to manage climate change. It provides businesses with enhanced tax relief for investments in equipment that meets published energy-saving criteria.

Key Features:-

- Open to all businesses that pay UK corporation or income tax, regardless of size, sector or location.
- Provides 100% first-year capital allowances on investments in energy-saving equipment against taxable profits of the period of investment.
- All the products listed on the ETPL must meet the energy-saving criteria, published in the ETCL.
- Only spending on new and unused energy saving equipment can qualify for ECAs.
- Capital allowances are available for spending "on the provision of" plant and machinery.

New! Eskimo Range

R1270 refrigeration condensing units

10% more efficient and 99.9% less GWP than R404A!
